

Proof Alliance is Leading the Following Legislative Priorities:

Priority 1: FASD-Informed Educators

Purpose: Embed FASD education into the continuing education requirements for educators to create FASD-informed learning environments that support the learning needs of children with an FASD.

Priority 2: FASD Informed Disability Social Service Access Points

Purpose: Create FASD-informed disability service assessment process for people impacted by an FASD and enhance collaboration with state and county agencies to ensure effective navigation and support.

Proof Alliance is Supporting the Following Collaborative Priorities:

Priority: Federal FASD Respect Act (HR 3646/S 1800)

Proof Alliance supports federal legislation to fund education, awareness, and services across community agencies and systems of care for infants and adults. This legislation provides funding to state and tribal systems for FASD services throughout the lifespan.

Priority: Increase Access to Essential Supports and Services in Minnesota

Proof Alliance supports legislation that will improve access and eligibility to state and county services to support individuals with an FASD.

Priority: Increase Accessibility and Expand Services to Provide Substance Use Treatment for Pregnant People in Minnesota

Proof Alliance supports legislation that will improve access and maintain funding for systems of care that provide treatment and support for pregnant people at risk of having a child with an FASD.

How did Proof Alliance Identify its 2024 Legislative Priorities?

- Annual constituent survey
- National FASD and Education Survey
- Assessed past legislative wins
- Reviewed affiliate organizations' legislative successes across the nation
