

# Help Create a Healthier, Better World for People Impacted by FASD

Become a Sponsor of the 19th Annual Proof Alliance Benefit for FASD

October 1, 2026 • The Urban Daisy

Fetal alcohol spectrum disorders (FASD) is a group of conditions caused by prenatal alcohol exposure. The effects of prenatal alcohol exposure can include birth defects, brain injury and lifelong disabilities.

FASD affects more lives than many realize, with as many as 1 in 20 children in the United States living with an FASD. In Minnesota alone, an estimated 8,755 babies are born each year exposed to alcohol prenatally. Prenatal alcohol exposure can lead to lifelong challenges, but together, we can raise awareness, support impacted families and work toward healthier outcomes for every child.

Proof Alliance is making a profound impact nationwide by raising awareness about the risks of alcohol use during pregnancy and providing essential education and support. Through our efforts, we deliver hope and practical resources to individuals, families and communities. Our work impacts tens of thousands of people each year.

Join us for the 19th Annual Proof Alliance Benefit for FASD, where a diverse and passionate community of over 200 supporters will come together for an inspiring and meaningful evening. Celebrate with live entertainment, a delicious meal, elevated mocktails and cocktails and the joy of uniting to make a lasting difference for individuals and families impacted by FASD. Together, we can build hope and drive change.

## **Become A Sponsor for the 19th Annual Proof Alliance Benefit for FASD**

At Proof Alliance, 98% of our funding comes from grants and donations. By becoming a sponsor, you're not just supporting this gathering—you're demonstrating your commitment to the FASD community and helping us continue to serve families in need. Please consider partnering with us to create a healthier, more vibrant future for families impacted by an FASD.
